## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimers filed on January 17, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent Numbers 6,457,504, 6,763,868, 6,814,119, and 6,899,154 has been reviewed and is accepted. The terminal disclaimers have been recorded.

### ***Allowable Subject Matter***

2. Claims 30-44 (renumbered 1-15) are allowed. The following is an examiner's statement of reasons for allowance:

The general formation of a tire carcass assembly from a plurality of strips is known in the tire industry, as shown for example by Frazier (US 3,240,250). However, one of ordinary skill in the art at the time of the invention would not have found it obvious to form the specific tire/carcass assembly of the claimed invention, including the formation of a first carcass ply defined by a first and second series of strips and a second carcass ply defined by a third and fourth series of strips, wherein a first annular reinforcing structure is positioned between the first and second series of strips and a second annular reinforcing structure is positioned between the third and fourth series of strips.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 1733

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
